## I got vaccinated...

to help protect those who are more vulnerable like my special son and his friends. Some of the folks in his support network are medically fragile and wouldn't survive a bout with COVID. Also, these dear people depend on the kindness of others to live their best lives. Losing a trusted caregiver for weeks at a time due to illness or the need to quarantine could greatly affect their well-being.

—Mary Erickson, associate editor of the *Wisconsin Energy Cooperative News*
