I got vaccinated because...

2020 was a devastating year. With the economic shut-down and high transmission rate of COVID, things felt overwhelming, frightening, and hopeless. This vaccine was the light at the end of the tunnel, and as soon as I was eligible, I immediately signed up for the shot. I care about my senior parents, my family, and my community, so for me, not getting the vaccine was never an option. Medical professionals have been studying coronaviruses for years, so I trust the science and safeguards that have been carefully vetted and tested. Our healthcare workers are true heroes and staying healthy is the best way to help them. I'm due for my booster in October and will be there with bells on, and a mask, because I never want another 2020 to happen again.
